Post Office Box 3500  
Ashland, Kentucky 41105-3500

Telephone: 606-928-6441

Subject: Material Safety Data Sheets (MSDS's)

DEAR CUSTOMER:

OSHA's "right to know" regulation, as promulgated in 29 CFR 1910.1200, the "Hazard Communication Standard", makes it mandatory for us to publish and distribute Material Safety Data Sheets (MSDS's) on some of our products. The products listed contain materials which, under certain conditions of use, or misuse, may pose some sort of health risk.

All products we ship are free from health hazards as shipped. It is only after mechanical, chemical or thermal alteration (grinding, welding, chemical cleaning, excessive heating, etc.) that some material may fall into the hazardous category.

Please read this MSDS carefully and instruct your employees to recognize when special precautions should be taken. If you do have questions, contact me. I will be happy to help you, our valued customer.

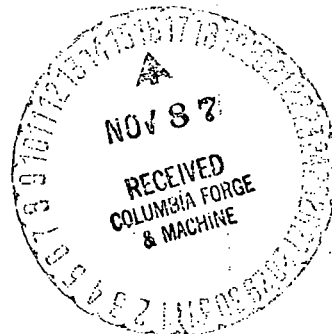

Cordially,

KENTUCKY ELECTRIC STEEL CORPORATION
